Anleitung: Lichterkette aus Holzhäuschen bemalen

Instructions No. 1150

This beautiful chain of lights consists of small wooden houses. With its warm LED lights it creates a cosy atmosphere and is a great decoration. Since the houses are made of raw wood, they are well suited to be painted in many colours.

And it's that easy:

How do I paint the fairy lights?

Put the fairy lights and different colors from Acrylic paint Then paint the little houses from all sides alternately in fresh yellow, light pink, or sky blue.

The cut-outs in heart-shaped or circular shapes can be framed with dots or small lines in pink, green, etc. Then your colourful decorated fairy lights are already finished. The painting can of course be creatively modified or extended.
