Advent wreath in a zinc bowl

Instructions No. 3130

Difficulty: Beginner

Working time: 1 hour

Looking for an idea for your own **DIY-Advent wreath**? A self-designed Advent wreath not only only adds a personal touch to your home, but also offers a wonderful opportunity to get creative and spend time with family and friends. In this detailed step-by-step guide, I'll show you how to create a magical Advent wreath for Christmas. The creative process is simple and a lot of fun - perfect for all craft lovers!

Step-by-step instructions for your DIY-Advent wreath

Step 1: Cut flower arrangement foam to size and fill the zinc bowl

First, take the flower arrangement foam and cut it to size with a cutter knife so that it fits perfectly into your zinc bowl. Make sure that the bowl is completely filled with the flower arrangement foam to create a stable base for your Advent wreath.

Step 2: Spread and fix moss in place

Now spread the moss evenly over the flower arrangement foam. If the moss does not hold well, you can fix it with some hot glue. The moss gives your Advent wreath a natural and festive look that is perfect for the Christmas season.

Step 3: Attach the candles and kandelaar

Insert the candles into the kandelaar and place the kandelaar in the zinc bowl. Make sure that the candles are secure and evenly distributed. They are the heart of your Advent wreath and create a cozy atmosphere.

Step 4: Add chain of light and scatter decoration

Now place the chain of light and the scatter decoration decoratively on the moss. Make sure that the battery compartment of the chain of light is easily accessible. The small lights and decorative elements will give your Advent wreath a magical glow and make it the highlight of your home christmas decoration.

Step 5: Positioning the battery compartment

Attach the battery compartment of the chain of light to the back of the zinc bowl. This way it remains invisible and you can easily switch the chain of light on and off.

Step 6: Tying and attaching the bow

Use the linen ribbon to tie a pretty bow. Use the hot glue to attach the bow to the moss . The bow rounds off your DIY-Advent wreath in style and adds a touch of elegance.

Must Have

Zinc bowl, Ø 22 cm, Zinc

Diameter (outside): 22 cm
Height: 7 cm
Material: Zinc
