Kreativ-Set Bienen aus Pflanzschalen

Instructions No. 938

Catch the summer!

These lively bees simply belong to it. Especially when they are as decorative and harmless as these. We have put together everything you need to make this summer decoration a good mood in your home.

Prime the planters with the Outdoor-Color paint in yellow and let them dry. Then paint the typical bee rings around the plant pots with the black colour.
Paint the wings on Lamp foil and cut them out.
Glue 2 chenille wires to the rim of the pot with hot glue so that you twist the protruding ends and bend them up as feelers.
Finally, glue the wings and the Wobbly eyes as close as possible to the Chenille wire at the pot rim, as you have the best hold on the material.
