Adventskerzenständer mit Elchen im skandinavischem Stil

Instructions No. 907

This extraordinary Advent arrangement in the Scandinavian style in red and white, combined with natural elements, quickly conveys a feeling of comfort.
This sturdy stand even offers you the possibility to redesign it after Christmas, in the winter season, with small handles, so that you will have friends for longer.

And it's as simple as that:

Put the balls on wooden sticks, dab them with decorative snow and let them dry.

Decorate the edges of the bowl and Kandelaar on the Advent stand with snow.
Cut the fir branches apart and glue them together with the bark into the bowl
Bind two loops from the Knitted tube and glue them on as well.
Now you decorate the designed snowballs and put the candles on the holders.
Finally, place a Knitted tube ring around each candle and fix it in place.
