Adventskranz im edlen Kupfer-Look

Instructions No. 424

Elegant and timeless - the stylish Advent wreath is kept completely warm Copper . It is made of styrofoam moulds and the tone-in-tone decoration is attached with a few simple steps. So the 1st Advent can come.

Instructions

Wooden plate, Polystyrene balls and bells with kind of metal copper colored primer and let dry.
Glue the bells with the opening facing upwards into the Kandelaar , press the balls onto the metal rods and glue them into the pre-drilled holes.
Glue the folded Acetate ribbon around the plate, and finish with the golden Cord.
The Ribbon in itself turn and around the Kandelaar as well as stick as conclusion on the bells.
wrapKandelaar with Cord , decorate the base plate with glass beads and insert the candles.

Extra tip: LED real wax candles
You can't tell from these great candles that they don't burn with fire. They flicker like real candles and smell wonderful Wax for candles.
