Alcohol Ink underwater world

Instructions No. 1970

Difficulty: Beginner

Working time: 1 hour 30 Minutes

With Alcohol Ink you can create spectacular colour gradients with little only effort. These underwater pictures were created with motifs such as divers, sharks and fish in different shades of blue. This idea is rounded off by the self-cast shells as Memo holder.

Cut the **Yupo Paper**to the size DIN A6 (10,5 x 14,8 cm) The Yupo Paper is waterproof and therefore ideal for the Alcohol Ink technique. Design it Paper with the **Alcohol Ink Ink**. Set as desired with **Metallic-Silver** and the **extender** accents. Print out the free **motif template**, cut it to size and transfer the **underwater motifs to** the paper. Colour in with a **black Marker** one

For the maritime note holders, **mix** the **concrete for creative people with** water according to the instructions to a creamy mass and pour it into the mould**.** After a drying time of **24 hours** you can remove the castings from the mould. Drill a hole in the top of the shells and fix the **Memo holder** with some **hot glue.** Coat the shells with **casting compound painting ground** and decorate them as desired with Alcohol **Ink.**

Must Have

Marabu "Alcohol Ink", Gentian

Fill volume: 20 ml

4,85 € (1 l = 242,50 €)
~~RRP 5,09 €~~
