Anleitung: Osternest auf dekorativem Tablett

Instructions No. 1121

The somewhat different Easter arrangement: this Easter nest with rabbit, Easter eggs and small felt flowers is built in a tray. Lovingly decorated with fabric and lace, the decoration looks romantic and at the same time Eastersy

And it is as simple as that:

How to design the tray?

The tray is primed inside and outside. The outer surfaces are covered with fabric and after drying the excess is removed with a scalpel. The lower edge of the fabric is also decorated with lace edging. For a shabby look, the edges are inked with the punch-on stamp in a wiping motion

How do I decorate the nest in the tray?

The decoration wicker is placed in the tray in a wreath shape and pressed firmly. The free spaces are filled with moss and the eggs and Embellishment are glued in as desired

Extra tip:
Place some more decorative rabbits or other figures in front of the tray.
