Brand painting: Picture frame "Scrap"

Instructions No. 232

Difficulty: Advanced

Working time: 45 Minutes

The **Wooden burning** was originally used quite practically to mark private property. But it can do much more!
With a little practice and a sure instinct, filigree patterns and lettering are created, which turn a simple blank into an unusual unique specimen. The extraordinary look is not achieved with any other technique, which is why it is so interesting and still up-to-date today.

And so it is done:

The silicone stamp is attached to the acrylic block. Then the motif of the silicone stamp is stamped on the picture frame. The motif contours can now be traced with the Brandmal-Pen.

The picture frame gets that certain something by wiping the entire surface with the very Ink Pads lightly. The cans are emphasized a little bit more. This gives the object a great vintage **look.**

This idea is timelessly beautiful!
