Bunny mail with stamps

Instructions No. 2767

Difficulty: Beginner

Working time: 1 hour 30 Minutes

It doesn't take much to make great cards and envelopes. With stamps and some beautiful papers you can create individual Easter mail in no time.

Individual card design:

With these beautiful cards and envelopes for the Easter season, you can be completely free and let off steam creatively.

For this idea, we have glued the double cards and envelopes with papers from a motif block or used the papers directly as a card. To do this, cut out the desired paper in the size of your card or tag and fold it in half using a folding leg.

Stamp white cardboard with the silicone stamps. To do this, remove the stamps from the backing film and place them on a stamp block or silicone block. Colour the stamps with paint or ink and press them onto the desired spot. The motif is ready.

Cut out the motifs as a square or rectangle and stick them onto the desired cards and envelopes. Another option is

to cut out the motifs with sharp edges and use them as decoration on the cards.

If you want a 3D effect with some of the motifs, you can use 3D adhesive pads to stick them on. You can also use a marker to set additional accents and personalise the letters and envelopes.
