Bunny-standing decoration with flower arrangement

Instructions No. 3580

Difficulty: Beginner

Working time: 1 hour

Create an enchanting bunny decoration in just a few steps that will bring rustic charm and freshness to your home with jute ribbon and plants. Perfect as an eye-catcher or personal gift!

The VBS metal bunny is supplied already mounted on a wooden base.

All you need to make it is some **jute ribbon, artificial flowers, side cutters, hot glue and scissors**. Start by attaching the beginning of the jute ribbon to your bunny with some hot glue. Hold it in place for a few seconds until the glue has dried.

Wrap the jute ribbon around the bunny's belly several times so that it is tight and glue the end of the ribbon in place with hot glue. When wrapping, make sure that the ribbon is evenly distributed. Trim the **plants, dried flowers or**

fresh twigs so that they fit into the ribbon .

Stick the plants decoratively into the jute ribbon. Test different arrangements until you have achieved a harmonious overall picture. They can also be fixed in place with a few hidden drops of hot glue. If desired, arrange a single larger flower on your new Easter decoration as the icing on the cake.

Your unique bunny decoration is ready! Visit our online store for matching jute ribbon and plants to start even more creative projects!

Must Have

VBS Metal rabbit on a wooden base

Content: 1 piece
