Say what you want to tell a loved one with this **great card** or use it as a beautiful invitation card. With this **butterfly card** you always have the right motif at hand. It's easy to make and will delight you with its pastel colours and the butterflies with **3D effect**.

This is how you design the pastel card:

1. The best way to start is to **stamp**. Place the **silicone stamp** on the **stamping tool**. Fix the double card in the stamping tool with the magnets. This way nothing can slip. Dab the ink pad over the silicone stamp. Close the stamp tool and press it with your hands.
2. For the **butterflies**, first dab white paper with your desired stamp colours. Punch out butterflies in different sizes from the now coloured paper.
3. Stick the cut-out butterflies onto the card with a little **craft glue** and/or **3D adhesive pads**, bending the wings upwards a little. This creates a great 3D effect.
4. The **envelope** can be decorated in the same way.
5. Now you can decorate the card with a nice saying of your choice and occasion.
6. Finally, clean the silicone stamp well with stamp cleaner.
