Cloud mobile for birth

Instructions No. 3425

Difficulty: Beginner

Working time: 2 Hours

There is hardly a better welcome for a newborn than a handmade gift that has been designed with love and creativity. Make your own cloud mobile and create an enchanting decorative element that shines as a unique and personalized birth gift. These easily customizable 3D clouds in versatile designs are not only only a soft eye-catcher for the nursery, but also carry loving messages wishing the new family member happiness and joy!

Punching out clouds

Start by punching the clouds. Use the punching template "Clouds" together with the Sizzix punching machine to create perfect cloud shapes. Try out three different variations to add variety and depth to your mobile. Using the Sizzix punching machine ensures precise and clean cuts.

Layer the clouds

Now that you have punched out the clouds in four different sizes, glue them on top of each other using 3D glue pads . This layering technique gives the clouds a three-dimensional effect, adding structure and volume to your mobile.

Add messages

Design each cloud with a personal message. Use a permanent marker or pens of your choice for this. Whether inspiring words or loving notes - the lettering makes your mobile even more individual and personal.

Connecting clouds

Use a hole punch to punch a small hole in each cloud. Thread a decorative yarn through the holes to connect the clouds together. Make sure to cut the yarn at the desired lengths so that the clouds fall nicely when hung up.

Tying the mobile together

Tie the individual clouds connected with yarn together to form a coherent mobile. Place the clouds so that each one is clearly visible and the mobile is evenly balanced.

Design a creative card

To round off your craft idea, you can design a matching card. Use similar materials and colors to create a harmonious gift set. Experiment with different papers and embellishments to add a personal touch.

Must Have

Punch template "Clouds"

Number of parts: 5
Width: 11 cm
Height: 6 cm
Material: Metal
