

Color glass yourself

Instructions No. 3636

Difficulty: Beginner 🍷🍷🍷🍷

Working time: 1 hour

Are you looking for a creative way to transform glass bottles into stylish decorative elements? Our step-by-step guide shows you how to color ordinary glass bottles with special glass and porcelain paint and turn them into stunning decorative pieces. These colorful bottles are perfect for adding a touch of individuality and color to your home or event.

Instructions: Coloring glass bottles creatively

Preparing the bottles

Before you start dyeing, make sure that your glass bottles are clean and dry. Residue or moisture can affect the result.

Applying the paint

Use a painting sponge to dab the glass and porcelain paint evenly onto the surface of the bottle. Be careful not to apply too much paint, as it will initially appear milky but will become transparent after drying and develop a beautiful shine.

Time to dry:

Leave the bottles to dry for about 4 hours. This time is necessary to ensure that the paint adheres firmly to the glass and that you achieve optimum results when firing.

Baking in the oven

Place the colored bottles in a cold oven. Set the temperature to 160 °C. Once the oven has reached this temperature, the bottles will need another 90 minutes to bake in the color. Allow the bottles to cool in the oven afterwards to prevent any tension in the glass.

Creative decoration

Now comes the fun part: fill the painted glass bottles with flowers, tea lights or other decorative elements as desired. Your self-designed bottles are now a real eye-catcher and add a personal touch to any room.

Start your creative project

Are you inspired to design your own colorful glass bottles? Visit our online store and discover our wide Selection range of glass and porcelain paints as well as the right accessories for your next craft project. Let your creativity run wild and create unique decorations for your home!
