Colorful flower mobilé

Instructions No. 3681

Difficulty: Beginner

Working time: 12 Hours

This mobilé with colorful paper flowers is perfect as a window decoration or wall decoration and also makes a lovely gift. And the best thing is: the flowers are child's play to make! The combination of delicate flowers, floating nylon threads and two rings looks light and modern, and you can adapt the design to your personal taste by varying the number of flowers and the number and sizes of the rings

Punch out and make flowers

Punch as many flowers as you like with motif punches from colored paper cardboard. You can combine large and small flowers to create more depth later. Carefully bend the petals of each flower slightly inwards. This will make the flowers look more vivid and alive.
Glue a small flower in the middle of each large flower. Place a half pearl in the middle of each one. Half pearls are flat pearls that are flat on the back and are particularly easy to glue on.
Leave everything to dry well.
Repeat this step with small flowers and glue a half bead in the middle of each one.

Attach flowers to Perlon threads

Now cut several long Perlon threads as desired. Perlon thread is a transparent, sturdy thread that is ideal for floating decorations.
Now glue two flowers together at a desired distance so that the Perlon thread is between them. For example, you can alternate between a large and a small flower to create a harmonious overall look.

Joining the rings together

Now knot the two rings together using the nylon threads so that the smaller ring hangs slightly lower than the larger one. This creates the typical mobile shape with several levels.
Then knot the prepared nylon threads with the flowers evenly to the rings.

Attach the suspension

Finally, attach two more nylon threads opposite each other to the large ring. Knot the two ends together at the top to form a loop. This way, you can easily hang up your flower mobile later.

Your DIY Flower mobile is now ready to brighten up your home. Whether simple, colorful or playful - you can customize the design with colors, spacing and flower shapes.
