Concrete birds on tree slice

Instructions No. 1496

Difficulty: Advanced

Working time: 45 Minutes

Decorated **Tree discs** are popular eye-catchers on tables and walls. Combined with the concrete look, the result is a design idea that everyone will love.

Little birds of wrought concrete

Modelling and painting the birds

2 oval slices are formed from **kneaded concrete** . Two plasticine balls are moulded onto these (bobble of caps). Let the plasticine concrete harden overnight. The next day you can paint the two winter birds to your own taste with Handicraft paint . For this idea we have VBS Hobby Color paint and a fine brush is used.

Prepare tree disc

In order to hang the **tree disc** well, a hole is first drilled in it with a cordless drill.
To ensure that the tree disc can be painted well, the birds and a small matching natural branch are first positioned as a branch without glue. This is the best way to estimate where small brown branches should be painted on the disc, which are then painted on with brown Handicraft paint and white Decorative snow

Finish

After the paint has dried, simply stick on the birds together with the small twig and a decorative bow Thread **Jute yarn** through the hole, pull this onto a **Wooden ball** and knot it carefully to the suspension belt.

Must Have

10% off VBS items

VBS Tree discs "Round"

Size: 14 - 16 cm
Content: 4 pieces
Height: 2 cm
Material: Wood
