Crafting your own decorative eggs

Instructions No. 1817

Difficulty: Beginner

Working time: 30 Minutes

These jewellery eggs look particularly noble due to the metallic colours and the pretty gemstones. The great thing is - the eggs can be easily recreated and can then be used as a jewelry box, as a hiding place for sweets or as a The jewellery eggs can also be made by children and decorated according to their own wishes.

First **prime** the papier-mâché eggs with white . It is best to apply several layers of paint to achieve a covering colour result. Always allow the paint to dry well between the individual layers. Then paint the eggs with different Maya **Gold colours for** a particularly noble appearance. For straight colour edges you can **mask** the eggs with masking tape and remove them after applying the colour. The metallic colours make the eggs shimmer beautifully. Again, you can apply several layers of paint to achieve a covering result

Stick now bit by bit the colorful **gemstones** in different shapes and colors according to your wishes with **gemstone glue on** the eggs

Now the self-designed decorative eggs can be filled with different things like chocolate balls, necklaces and bracelets or with small gifts.
