Decorative candles with napkin technique

Instructions No. 528

Difficulty: Advanced

Working time: 20 Minutes

On these noble candles you can either stick a suitable napkin strip in the desired height or alternatively combine cuttings of different sizes. Half Napkin a napkin strip fits exactly once around the candle.
As a thick wax edge remains when burning down, you can later place a tea light in the remaining shell and thus enjoy the candles for a particularly long time.

Here's **how it works**

Remove the two unprinted layers of paper and stick the printed layer with Candle Potch on the candle. This special Napkin varnish guarantees a safe burning.
Emphasize the edges of the candle with the flat Ink Pads and decorate the candles according to your taste with ribbons and natural bast. Finally, tie small loops and fix them with hot glue.

This idea is timelessly beautiful!
