DIY Onion basket with leather label

Instructions No. 3662

Difficulty: Beginner

Working time: 1 hour

Are you ready to add a touch of rustic charm to your kitchen? With our VBS Craft kit rattan cane "Onion basket", you can create a stylish onion basket from rattan cane and decorate it with wooden burning in no time at all.

Step 1: Preparation

Create your onion basket in a few simple steps - with the instructions included in the set.
Start your project by downloading and printing out our free template. Carefully cut out the template.

Step 2: Work the leather

Place the cut-out template on a piece of leather. Outline the stencil with a sublimation pen. The violet color liquid of the pen disappears by itself and leaves no traces. Then cut out the leather along the outline you have drawn.

Step 3: Prepare the lettering
Draw your desired lettering or motif onto the piece of leather. Also use the sublimation pen for this.

Step 4 wooden burning
Now heat the branding pen. Slowly trace the pre-drawn lines.

Step 5: Punch holes
Use a hole punch to punch two holes on both sides of the leather label.

Step 6: Attach the jewelry cord
Cut two pieces of jewelry cord of the same length. Thread the pieces of cord through the punched holes in the leather label and place the label on your onion basket. Knot the pieces of cord from the inside of the basket so that the label is securely fastened.
