DIY Puzzle

Instructions No. 2522

Difficulty: Beginner

Working time: 3 Hours

Puzzles are a great activity for young and old. The individual puzzle pieces are put together one by one and at the end you get a complete picture. In this tutorial we will show you how to create your own puzzle quickly and easily. Perfectly suitable as a gift.

Create a DIY puzzle

1. First remove the puzzle from the frame.

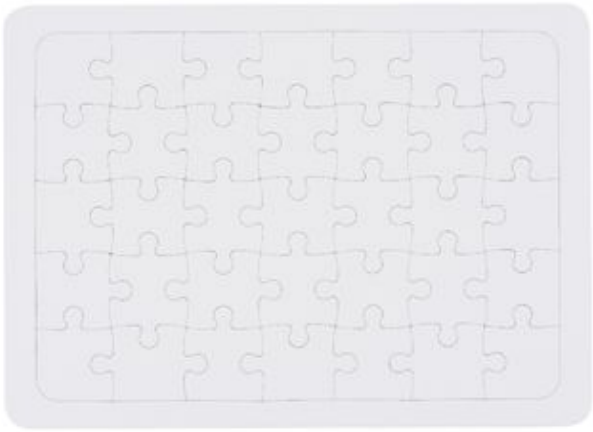

2. Design the frame as you like with any watercolour paint.

3. After drying, arrange the silicone stamps on an acrylic block and apply stamping ink with a dabbing brush. Press the stamps firmly onto the puzzle.

4. Once the ink has dried, the motifs can be coloured with brush pens and watercolours.

Important: To ensure that you enjoy your silicone stamps for a long time, they must be cleaned with stamp cleaner after use.

Must Have

VBS Blank puzzle, 35 pieces

Length: 29 cm
Width: 21 cm
Thickness: 3 mm
Material: Cardboard

3,79 €
