Working time: 2 Hours

Make the Easter season extra special and join us in creating eggs with unique chicken masks. These cheerful decorations will add a playful touch to your Easter celebrations and are also a wonderful craft project for the whole family. Let's go - we'll show you how to transform your eggs into funny chickens step by step!

Start by downloading our templates and transferring them to your craft cardboard sheet . Draw the outlines carefully and make sure that all parts are clearly visible. Grab your scissors and cut out the parts precisely.

Take the cut-out triangle for the beak and fold it in the middle. This crease gives the beak its characteristic shape and gives your bird a lively appearance.

Now put all the elements of your bird together. Glue the beak halves onto the body of the bird in the intended place. Use glue that dries quickly to ensure a firm hold.

Punch two holes in the sides with the hole punch. Use the smallest attachment for this. Cut about 15 cm of cord and tie three knots at one end. These ensure that the cord does not slip through the hole. Pull the unknotted end of the cord through one hole and pass it over to the other hole. Once there, tie three knots to securely fasten everything. You can now paint your clay pots brightly if you like. Once dry, the eggs can be placed in the pots. Your eggs with chicken masks are ready!
