Fir tree with decorated base

Instructions No. 3506

Difficulty: Beginner

Working time: 30 Minutes

Winter is knocking on the door and what could be better than adding a warm, glowing accent to your home? With our instructions for a **beautiful light fir with base**, you can create a winter atmosphere in no time at all. This DIY-Project is not only easy to implement, but also gives your creativity free rein. Transform your living space into a little winter wonderland and make your guests' eyes light up at the same time.

Create a radiant fir tree of light: a magical project DIY-Project for the winter season

Step 1: Prepare your light fir

Start by carefully placing the wire-fir with chain of light on the wooden floor. You can use hot glue to make sure everything is firmly in place.

Step 2: Decorate the fir with decorative branches

Use pliers to cut small pieces from your decorative branches. Glue the cut pieces of twig to the wooden surface around the fir . Use hot glue here too to ensure that the branches stay firmly in place.

Step 3: Add small figures

For that extra detail in your winter wonderland, place two selected figures strategically between the branches. Make sure they are clearly visible and secure. Attach these with hot glue too. The figures add a personal touch to your Christmas tree and bring the scene to life.

Step 4: Complete the winter scene

Take a few more branches and place them next to your created winter scene to complete it. As a final touch, place the third figure next to the branches. Make sure the arrangement is balanced so that the overall picture looks harmonious.

Let your creativity run free

Now it's time to relax and enjoy the atmosphere! As soon as the glue has dried, you can switch on the chain of light and enjoy the radiant fir tree. Provide pleasant lighting that radiates warmth and joy.

Unleash your creativity and bring winter magic into your home! Visit our online store and discover all the materials you need to create your own personal fir tree of light. Start this wonderful project today and bring the world of craft ideas to life!
