Floristic arrangement with grapevine wreaths

Instructions No. 3676

Difficulty: Beginner

Working time: 2 Hours

Are you ready to let your creativity run wild and embellish your home with a unique, homemade floral arrangement? In these instructions, you will learn how to create a magical decorative piece from grapevine wreaths using simple tools. This natural work of art will not only bring freshness and color to your four walls, but will also be a wonderful eye-catcher for your guests. Follow us step by step to create a floristic masterpiece that will delight beginners and experienced crafters alike!

Instructions for your floristic arrangement with grapevine wreaths

Preparing the surface

Start your craft work by placing an oak rind board on a stable surface. This board serves as a base and gives your arrangement a rustic charm that perfectly matches the natural look of the grapevine wreaths.

Attaching the grapevine wreaths
Take the grapevine wreaths and position them upright on the oak rind board. Use hot glue to attach the wreaths securely. Press the wreaths firmly to the board to ensure the glue creates a strong bond. Make sure the wreaths are evenly spaced.

Wrapping the mini leaf garland
Now it's time to add even more natural charm to your decoration. Gently wrap the mini leaf garland around the attached wreaths. The garland symbolizes the lush greenery of nature and complements the vine wreaths perfectly. Make sure it is tight enough not to slip, but loose enough to fall gently around the wreaths.

Preparing the flowers
Choose flowers in your favorite colors to give your arrangement a personal touch. Cut the stems to the desired length using side cutters. Make sure they are not too long so that they blend harmoniously into the wreaths.

Attaching the flowers
Apply a generous amount of hot glue to the cut ends of the flowers and place them where you want them on the wreaths. Press the flowers gently for a few seconds to make sure they hold firmly. Experiment with the arrangement to achieve a balanced and appealing overall look.

Decorate with moss
For a final natural accent, you can apply moss to the bottom of the arrangement. The moss topping gives your work an earthy texture and emphasizes the natural look. Use hot glue here too to securely attach the moss so that it doesn't slip.
