Fold a garland of leaves from Paper

Instructions No. 3548

Difficulty: Beginner

Working time: 3 Hours

The perfect fall decoration - a garland of leaves from Paper

Autumn is the time of year when nature shows its most colorful side. So why not bring this blaze of color into your home? With a **homemade garland of leaves made from Paper**, you can bring autumn right into your home. This DIY-Instructions are not only child's play, but also a great creative activity for the whole family. Discover how you can conjure up an enchanting autumnal decoration with just a few items.

How to create your leaf garland Paper

Making leaves with a template

Preparation: Print out the template for the leaves and cut them out. This will give you evenly shaped leaves.

Step 1: Choose a colorful leaflet and fold it in half.
Step 2: Place the straight side of the stencil against the closed edge of the folded paper and trace the outline.
Step 3: Cut out the sheet along the line and unfold it.
Step 4: Fold the sheet like an accordion (folds about 0.5 to 1 cm apart)
Step 5: Fold the folded sheet in the middle and glue the two inner sides that meet together.
Step 6: Fan out the leaf slightly so that it looks nice and voluminous.

Designing oval leaves

Step 1: Fold a square piece of Paper diagonally and cut it into two triangles along the fold line.
Step 2: Take one of the triangles, fold it diagonally again so that the closed side is on the left and the point is facing upwards.
Step 3: Cut along the right-hand side with contour scissors (zigzag scissors) - this gives the edge a nice structure.
Step 4: Fold the sheet like an accordion.
Step 5: Fold the strip in the middle and glue the insides together.
Step 6: Open the leaf slightly so that the fan-like shape comes into its own.

Assemble the leaf garland

Repeat the steps above until you have enough leaves for your garland - depending on how long you want it to be.

Step 1: Take a bamboo cord or other string.
Step 2: Apply a small dab of handicraft glue or hot glue to both ends of a leaf.
Step 3: Wrap the cord around the glue dot and fix it in place. You can wrap it around the leaf once or several times as you wish.
Step 4: Repeat until your garland has reached the desired length.

Must Have

Premium folding paper "Basic", 15 x 15 cm

Grammage: 70 g/m²
Length: 15 cm
Width: 15 cm
Material: Paper

2,89 € (1 m2 = 1,28 €)
