Frühstücksbrettchen aus Holz im Landhaus-Stil

Instructions No. 999

This set with small **breakfast boards forms** a beautiful frame for the flower motives of **Straw silk paper**. Romantically decorated in country house style they are a special eye-catcher on your breakfast table. But if this seems to be a pity, you can also hang the small boards as a picture on the wall and create a small gallery from it.

And it's that easy

Prime the breakfast tray in white. Cut the flower motifs from Straw silk paper, place them on the dry board and stick them on with Napkin varnish. With Ink Pads you wipe over the edges, this emphasizes the edges. Finally seal the complete board with the Clear varnish.
