Glowing Snowball Garland

Instructions No. 1049

From **Acrylic balls, Fir** and **a chain of lights** you can create this beautiful decoration very quickly. The balls hang like little **snowballs** on the fir garland.

The glitter paste reflects the light to the mysterious nature of the snow and the foil captures the glow of the stars. Hang this pine garland in your window, decorate your staircase or simply any place in your house by perfectly showing off this sparkling winter decoration.

And it's that easy

Dab the halves of three Acrylic balls generously with glitter paste and let them dry before you put them together. From the other two Acrylic balls use one half of a sphere as Stencil and cut a circle out of the star foil. Put the cut out circle into the ball and put them together. Attach small satin ribbons to the eyelets of the balls to hang them up.

Now thread two lights of your light chain into the opening of each ball, tie the ball to the light chain with a satin ribbon (loop).

Decorate the finished ball-Chain around the fir garland and fix it with the ribbon as well. Form two loops from the Jute ribbon and tie them to the ends of the firs.

Must Have

VBS Fir garland, 2.75 m

Length: 2.75 m
Diameter (outside): 25 cm
Material: Plastic

12,99 €
