Good Mood Styrofoam Egg Figurines

Instructions No. 1735

Difficulty: Beginner

Working time: 10 Minutes

The funny egg birds are a great eye-catcher in every home. They are quickly made and will certainly put you in a good mood!

Paint, glue - finished!

Basis for this handicraft idea are Polystyrene eggs. these are **painted Handicraft paint**with Chalky

It helps if the "belly" of each bird figure is first drawn with a line-ex pen. Ink This special pen disappears completely after some time.

Choose a base colour for each bird and a contrasting colour for the belly area. Once the paint is applied and dried, the **Wobbly eyes** can be glued on. Simply stick the chicken beak and feet into this. The bird figures get even more personality through painted moustaches. This works very well with a black **Fineliners**.

Finally, fix the surface with hot-melt adhesive **Cylinder** and arrange the funny figures with small decorative eggs and maybe some moss in your home.
