Greeting cards for forest lovers

Instructions No. 2356

Difficulty: Beginner

Working time: 4 Hours

Neutral designed card greetings with decorative forest motifs inspire not only nature lovers! Let our decoration examples inspire you to create your own self-designed cards!

Card design with motifs from the forest

For DIY cards with forest motifs there are several options for design:

On natural kraft paper, cut sheets of paper can be cut from a colored paper and glued.

Use the motifs of the silicone stamp "Forest animals". Stamp the little trees on green paper, foxes and hedgehogs on brown, then simply cut out these motifs for sticking on the cards. Or stamp directly onto the greeting cards - according to your personal taste.

Motifs such as forest animals or birds from 3D punching sheets or punched with punching machine and template you can easily create small image reliefs on the cards with 3D adhesive pads.

Combine the elements on each card anew, so all your self-made copies become unique.

The "forest cards" in our decoration example were made without a greeting message. They are therefore ideal as a "card stock" for any occasion.

We hope you have fun making your own creations!
