Homemade fabric bunny with wooden ball

Instructions No. 1706

Difficulty: Beginner

Working time: 45 Minutes

These cute fabric bunnies are easily and quickly sewn. This sewing project is also perfect for beginners.

First download the **motif template**. Then take your desired fabric and lay it right on right (printed motif is inside) and transfer the motif template to the double-layered fabric as described above. When cutting to size, please allow for a seam allowance **of approx. 1 cm**.

The next step is to sew the cut out fabric together. When sewing together you must leave the seam between the ears free for turning. Then cut small notches along the ears and between them into the edges of the seam until just before the seam, so that the ears can be better shaped later. Now turn the bunny over.

Now fold the two corners of the bottom crosswise to the longitudinal seam so that the bottom becomes a square. Stitch a short seam across the formed Lace.

Now you have to fill the bunny with cotton wool and then sew the opening between the ears by hand, e.g. with a ladder stitch. Finally take these Wooden ball and paint a cute bunny face on them. Afterwards you have to thread Wooden ball the only ears through them and bring them into shape.

The instructions for the cloth bunnies without ball can be found here.

Dear sewer, as fabrics are seasonal goods and we always want to have trendy fabrics in stock for you, it can happen that the sewn fabric is no longer in our range.

In our fabric section you will find a large selection of great fabrics. Click **here** to discover **all the fabrics**.
