Instructions for a stylish macramé lamp

Instructions No. 1401

Difficulty: Advanced

Working time: 1 hour

The pastel-coloured **lamp** can easily be created by yourself using the **Macramé technique** . Treat yourself to a little knotting fun - the finished knotting object will certainly become a new highlight in your home!

Here's how it's done

For the lamp 3 Macramé-sets "Pastel" are required.

First the **inner lamp** is manufactured. For this 12 yarn strands of 2 m each are needed. These are cut in half and knotted to a metal ring with Ø 15 cm.

4 threads each are tied into a loop knot until the first Macramé-row is created. Now, in a new row, new loop knots are tied with two threads of each knot. Make further rows according to this pattern until a length of about 12 cm is tied.

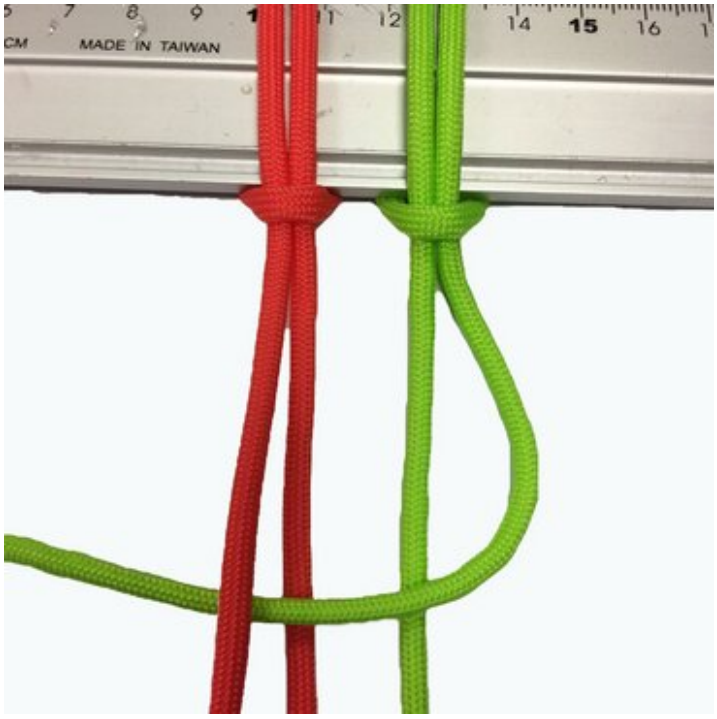

Fix the **lamp socket** with transparent Perlon thread in the middle of the inner metal ring. Knot 4 more Macramé-strands to the metal ring at equal intervals. Draw up wooden beads and knot these strands to another metal ring with approx. Ø 20 cm.

Extra tip
Hang the "temporary" lamp as straight and freely suspended as possible on a hook. For example, clamp a round bar firmly between two chairs. In this way, you will be able to connect both lamp rings particularly evenly.

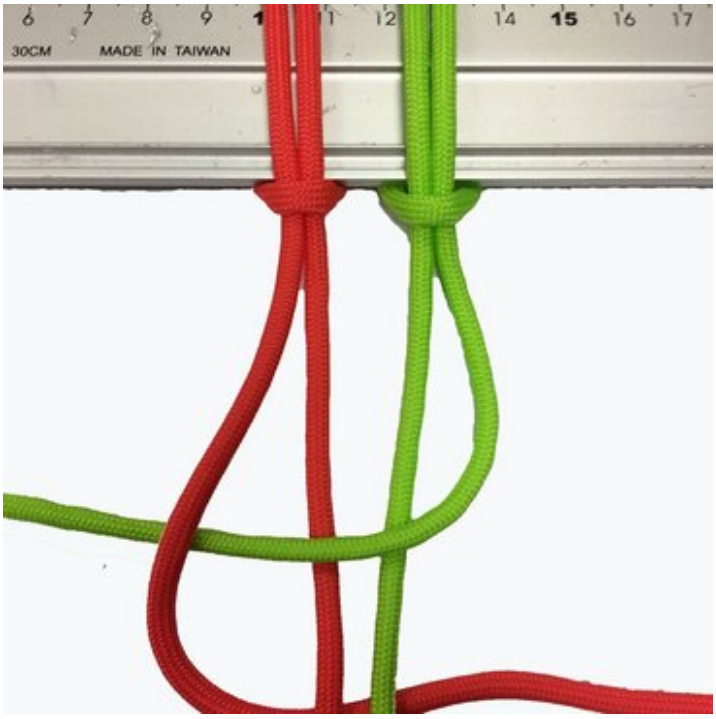

For the **outer ring**, 10 strands Macramé Yarn **are** now cut into different lengths and attached to the outer lamp

ring. According to personal taste, thread wooden beads and fix them to the strands with a simple knot. The different threads can be made in different lengths.

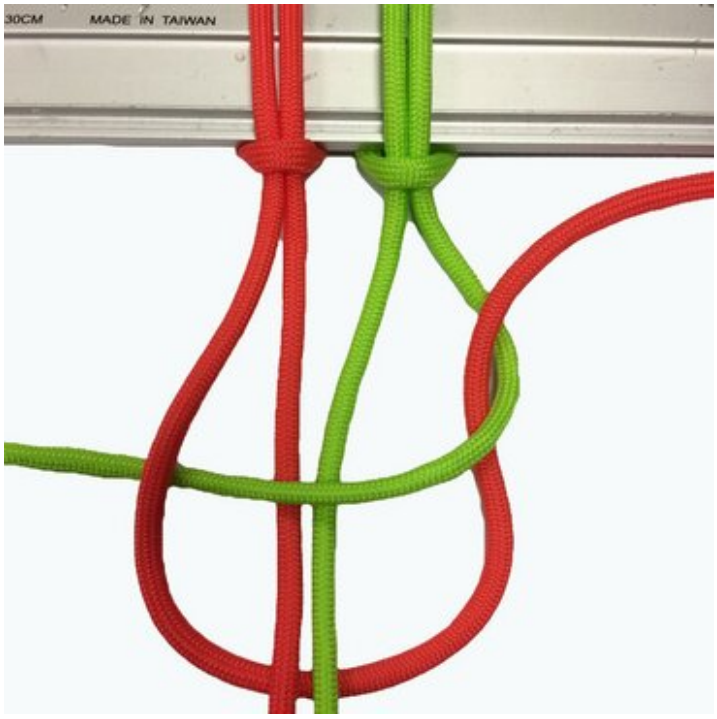

This is how you make connections with the Macramé-technology

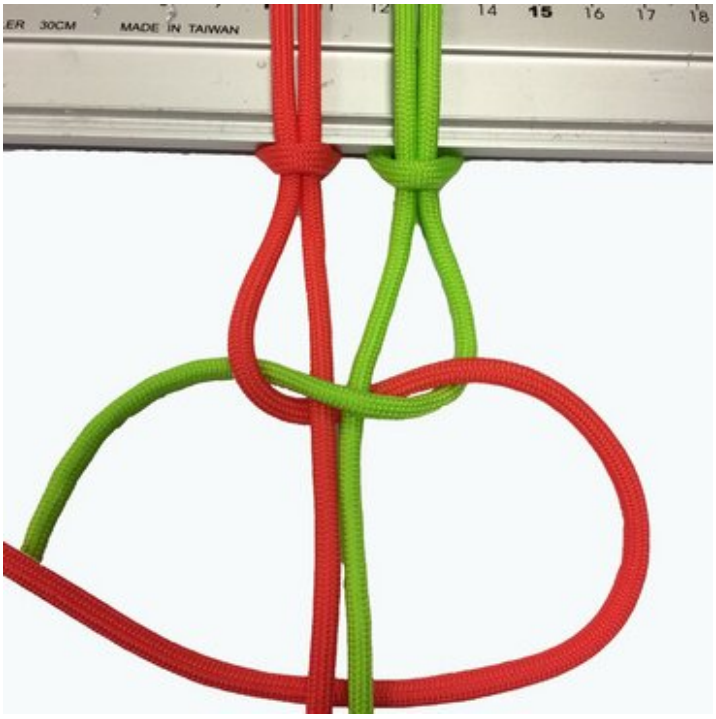

Step 1

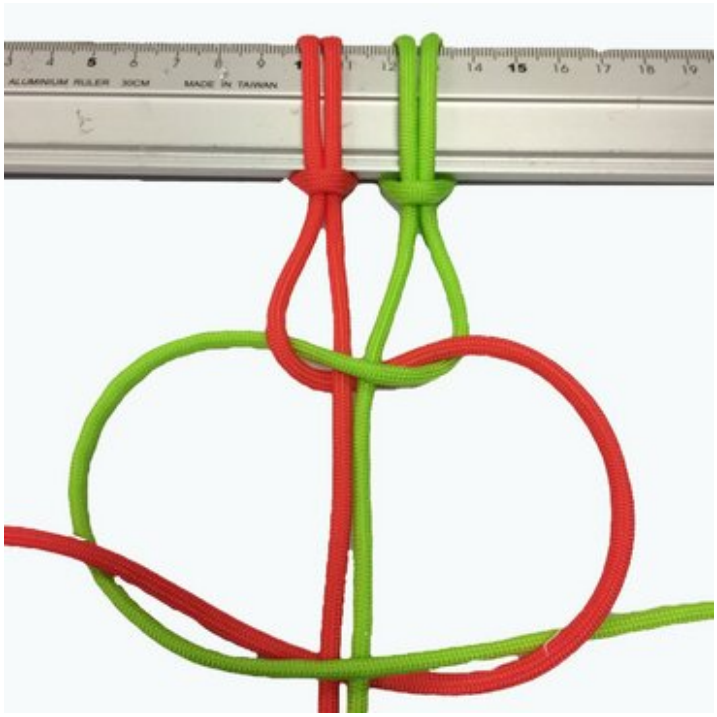

Step 2

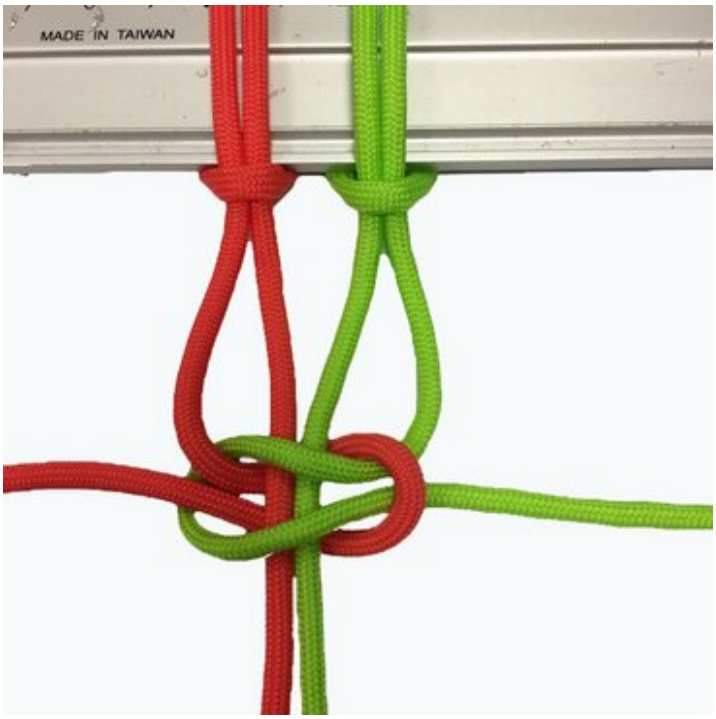

Step 3

Step 4

Step 5

Finished loop knot

Used Macramé-node

For tying with this knot you need 2 strands of yarn

Attach it to the metal ring with a loop and as shown in the picture put the right outer thread (green) in front of the inner threads and behind the red thread and the left outer thread (red) behind the inner threads and in front of the green thread. Then tie the left outer thread (green) in front of the inner threads and the right outer thread (red) behind the inner threads. The first loop knot is finished.

So beautiful is Macramé!

The Macramé technique is an old one and leads to boring optics? Not at all! With only little knotting work you can create fascinating decorative objects that will be optical highlights.

Combine Macramé knotting with modern craft materials such as cork .

Macramé means knotting threads. This can be done with complicated entanglements or with very simple normal knots. The knotting process is a very relaxing creative work.

Must Have

VBS Wooden beads "Color mix", 250 g

Number of parts: 750
Weight: 250 g
Diameter (outside): 10 mm
Material: Wood

8,99 € (1 kg = 35,96 €)
