

# Instructions: Sound chimes made from terracotta pots

**Instructions No. 1224**

Difficulty: Beginner    

Working time: 1 hour

**Terracotta pots can be tinkered with a few simple steps to a colorful sound play, as a fresh decoration for your garden.**

**And it's that easy:**

**How do I paint the terracotta pots?**

First you prime the terracotta pots in the desired colour. After the primer has dried well, transfer the Painting templates to the terracotta pots using transfer paper and a pencil.

Then paint the motifs in your favourite colours.

**How do I make a sound play from the painted terracotta pots?**

First cut five approx. 20 cm long Cords In the next step, take the Cords double and attach a little bell at both ends of each Cord . In this way you get a ball with all bells on the same length.

Now cut off another Cord , take it twice and knot all Cords together in the middle. At the end you get a Wooden ball.

Next, you determine the length of your sound game and cut two Cords of the same length. Now you always place an account, place a Wooden ball over it and thus determine where the individual terracotta pots will hang in the sound game.

Now you have to hang up the soundgame only and that's it!

## Must Have

[Terracotta pots, Inside-Ø 4 cm, 10 pcs.](#)
