A successful invitation card is the perfect prelude to any special occasion. If you're making wedding plans or planning a relaxed get-together with friends, then the "Greenery" trend theme is just the thing for you. With a few glamorous gold accents, you can create stylish invitations that will leave a lasting impression on your guests. In this detailed step-by-step guide, we'll show you how to design your own invitation cards.

Design the cover page

Start by designing the cover page of the card. Choose the place where you want to place the lettering "Invitation". Apply a few strokes of white acrylic paint there with a brush. It is important to apply the paint undiluted so that the Paper does not curl. As soon as the paint has dried, you can write on the cover sheet with a suitable marker .

Decorate the card

To give your card more vibrancy, grab some washi tape. You can decorate the card creatively with different colors and patterns. You can apply the tape along the edges of the card or directly to the lettering. Vary the strips as you wish or cut out special shapes to give the invitation a personal touch.

Finishing the invitation

Now it's time to design the invitation text. Cut a suitable piece of Paper that is slightly smaller than the card itself. Write the invitation text on it and place it inside your card. To give the invitation stability and a decorative finish, cut a piece of jute ribbon , wrap it around the card several times and knot it tightly. Pull a monstera leaf onto the ribbon as a decorative element and fasten it with a loop. Your stylish invitation card is now finished!
