Kids game Labyrinth

Instructions No. 2097

Difficulty: Beginner

Working time: 2 Hours 30 Minutes

How does the bee get from its hive to the pretty flower? She has to be guided through this self-made maze with a little help. Great fun for children that encourages hand-eye coordination in a playful way.

This is how you create the labyrinth:

1. Design the bottom of the tray with craft paint in may green, the edge in ice blue. Allow to dry. For a brilliant colour result, you can apply a second coat of colour after drying.

2. Cut the following lengths from the square strip:

- 3 x 10 cm
- 7 x 5 cm
- 8 x 3 cm

3. Smooth the surfaces of the wood with sandpaper. Sand the edges of the saw cleanly to remove splinters.

4. Paint motifs with craft paints, markers and fineliners. Decorate the outer edge of the tray with clouds.

5. Lay the sawn wood and wooden hemispheres to form a labyrinth and fix everything with craft glue. Attach pieces of the decorative fence with craft glue as well.

6. Paint the wooden balls with yellow craft paint. Once dry, you can paint on black stripes with a marker.

7. Spray all the parts with clear varnish once they are completely dry.

8. Let the fun begin!

Must Have

VBS Wooden tray, round

Diameter (outside): 34 cm
Height: 5 cm
Thickness: 1 cm
Material: Raw wood
