Knitted scarf in block stripe pattern

Instructions No. 2929

Difficulty: Beginner

Working time: 8 Hours

Want to knit a pretty scarf yourself? This great knitted scarf in a block stripe pattern is wonderfully warm. With the knitting strip you can knit it yourself quickly and easily, even without a needle.

Use the knob at the end of the knitting strip as a fixing aid, as you now turn the strip in front of you so that the yarn is on the wrong side. Loosen the yarn and knit another row of "figure 8 loops".

If you now turn the knitting strip, you will have two loops on each knob. Now "knit": Use the hook needle to lift the bottom stitch over the top stitch on each knob in the front row from left to right. You can knit the front row and then the back row in this way.

To ensure that you have two stitches per knob again, always zigzag the yarn around the knobs and then knit the resulting stitches again by lifting the bottom stitch over the top stitch.

If you want to use a new wool color, simply cut the thread of the wool you are currently using and knot the end with the new wool.

Continue in this way until the scarf has reached the desired length.

To finish your scarf, you now need to fasten off all the stitches. It is best to use a crochet hook for this.

First slip the stitch from first top peg and then the stitch from opposite the bottom peg onto the hook. Now pull the back stitch over the front stitch and have only one stitch left on the hook.

Repeat the process; take the opposite stitch down and pull the first stitch over it.

Use the last loop to pull the end of the yarn through. Sew the wool to the back of the scarf.
