Make your own children's memo

Instructions No. 2128

Difficulty: Beginner

Working time: 4 Hours

Memory® is a popular game that can be played excellently even with the youngest children. It trains the memory and promotes sensory perception. Our memory game has beautiful large colourful pictures and is an ideal pastime. For very young children, you can also encourage the child's language by saying what is on the cards.

This is how the great game is made:

Print out the **free templates** and transfer the motifs onto the coasters using graphite paper.

Now you can colour in the motifs with your favourite colours from the Outdoor Color palette and then trace and emphasise the contours with a marker.

Rules of the game:

First, the cards are shuffled and laid out face down. One player begins. First, he or she turns over two tiles. If the motifs are identical, the player may keep the cards and turn over two more cards until the motifs are different.

The winner is the player who has found the most pairs at the end.

Must Have

10% off VBS items

VBS Coasters, 50 pieces

Content: 50 pieces
Length: 10 cm
Width: 10 cm
Thickness: 2.4 mm
Material: MDF wood
