Making a miniature house

Instructions No. 3614

Difficulty: Advanced

Working time: 6 Hours

Create your dream house "en miniature". These crafting instructions show you how to create a decorative miniature house using templates and the right crafting materials. This is ideal as an eye-catcher in your home. Or the perfect basis for a special personalized money gift.

First print out the templates and glue template A with B, C with D and E with F together. Then cut out the glued-together templates and transfer them to the gray cardboard and the motif cardboard. Then cut out all the pieces.

Now fix the two walls to the floor with hot glue. For additional stability, also connect the walls from the back with hot glue.

Glue the cut-out motif cardboard-parts to the matching gray cardboard parts. Leave everything to dry well. Once the

parts have dried, attach the shingles to the edge of the roof with hot glue.

Now you can paint the door, letterbox, fence elements and bench as you wish and leave to dry thoroughly again. Cut off parts of the flower pick with green elements and glue them to the fence elements.

Cut off parts of the boxwood and glue them to the façade. Use hot glue to create longer elements by attaching several pieces together or on top of each other.

Place the remaining decorative elements according to your taste and glue them in place.

You can find everything you need for this creative project in our online store. Plan your own miniature house and order the creative materials today!

Must Have

VBS Miniature door "Sally"

Width: 8 cm
Height: 18 cm
Thickness: 1.5 cm
