Making a Vase from Plaster

Instructions No. 2169

Difficulty: Beginner

Working time: 2 Hours

You can create great decorations with **plaster**. In our tutorial, we show you how to make a great **egg-shaped vase** that you can decorate with beautiful flowers and branches. An eye-catcher on the table, the dresser or also as a gift for your loved ones.

That's how it's done:

1. First cut 2 rolls of the **plaster bandages** into small pieces with the scissors.
2. Blow up a **balloon**.
3. Dip the plaster bandages in a small bowl of water, stick them to the balloon and smooth them out nicely. Repeat gluing the plaster bandages until you have at least two layers. The more layers there are on top of each other, the more stable the egg will be. Leave a space at the top of the balloon that you do not glue plaster to. Let your egg dry.
4. Prick the balloon with the scissors and remove it.

5. Then cut the **edges** of the egg into the desired shape. You can smooth the edges with a little water. Let the egg dry again.
6. After drying, coat the inside of the egg several times with plaster sealant and let it dry for another 24 hours.
7. Now place your finished egg in the wicker wreath and decorate it with **flowers** and decorative wicker.

Must Have

Modelling bandages, 3 m x 6 cm, 6 rolls

Weight: 390 g
Content: 6 pieces
Length: 3 m
Width: 6 cm
Material: Cotton

12,79 € (1 kg = 32,79 €)
