Maritime Bootschale gestalten

Instructions No. 1870

Difficulty: Beginner

Working time: 45 Minutes

Ahoy! The sails are set and steer directly into the next maritime craft adventure. This decoration is quick and easy to implement and immediately makes you want to go to sea.

Paint the inside of the boat and the edges of the anchor with **metallic colours.** In our example we used **Viva Decor Maya Stardust** in turquoise. Attach **double-sided** hemp cord to the eyelet of the anchor **and Adhesive tape**wind the hemp cord around until none is Adhesive tape visible

Flagpoles are made from **wooden square strips**, which are simply shortened to the desired length beforehand. The cut strips are fixed inside the boat with **hot glue**. Label the **Canvas Tags** with **Marker**paint a **spreader** in the same colour and attach the anchor to one of the tags with some **VBS Handicraft glue**. After the paint has dried, the **hemp cord** is pulled through the eyelets of the canvas tags and the ends are attached to the already manufactured poles

Fill the boat with the shell granules**,** place the bath lady **and** some shells**.** Wrap the Glass for tea lights **hemp cord** around the boat. For this purpose, attach double-sided Adhesive tape to the glass in advance. The strewing part is fixed with Handicraft glue .
