Maritime fish from paper wire

Instructions No. 2697

Difficulty: Beginner

Working time: 3 Hours

A matching decoration for the maritime trend must not be missing. Create a beautiful maritime decoration with this idea and a matching template.

First, intertwine 4 strands of the paper wire per fish. Use the template to bend the fish into shape. Then transfer the templates to the natural papers and cut them out. Next, use craft glue to stick the wire fish onto the papers.

Finally, the driftwood is glued together in several staggered layers. When everything is dry, the holes are drilled, the bamboo skewers are placed with hot glue and finally the fish are glued on.

Must Have

VBS Paper wire, White

Length: 200 m
Thickness: 1.2 mm
Material: Wire, Paper

12,99 € (1 m = 0,06 €)
