Mummies from photo cardboard

Instructions No. 2665

Difficulty: Beginner

Working time: 15 Minutes

Halloween is just around the corner and mummies are almost a tradition as a disguise or decoration. With these easily made mummies from photo cardboard, you can adapt your decoration to suit the occasion.

To make these creepy but at the same time funny mummies, all you need to do is transfer the existing template onto the photo cardboard and then cut it out accordingly.

Next, glue the wiggly eyes onto the cut-out figures.

Now all you need to do is wrap the wool around the figures to make a mummy. Simply glue on the beginning and end of the wool so that everything will last for Halloween.
