Necklace and ear studs with leather and pearls

Instructions No. 600

Difficulty: Advanced

Working time: 15 Minutes

Coloured leather in your favourite colour is combined with elegant Glass beads ones to create extraordinary pieces of jewellery. The "Miracle Beads" are available in many exciting colours, which can be combined wonderfully. The special thing: They store daylight and artificial light and glow in the dark for some time. A great effect!

Ingenious: Jewellery made from leather remnants

Here's **how it works**

Make templates with the help of the template, transfer them to suitable leather pieces and cut them out.
Put the bars around the Spiral neck bracelet , stick them on the back with lightning glue and let them dry.
Make the petals from leather of a different colour with the help of another Stencil and pierce two holes in each with a thick needle.
Thread alternately five petals and 5 beads on a piece of enamelled copper wire, twist the ends together. Glue the finished flowers on the leather and decorate them with single beads.

For the Ear hole stud stick a leather circle of about 1 cm behind each flower and place it on the plate of the Ear hole stud.

Must Have

Leather residues, 500 g

Weight: 500 g
Material: Leather

6,99 € (1 kg = 13,98 €)
