Nordische Spieluhr mit Wichtelkind

Instructions No. 1024

This little gnome in nordic design with its knitted scarf and the red pointed cap finds its perfect stage on this music clock. Arranged in winter with decorative snow and little stray stars, this decoration is made to shorten the cold days with its melody. Small hearts and the red-white design fit perfectly to the Nordic look and gives the classic, nostalgic music clock a modern comeback.

Here's how it works:
Prime music clock in white and let it dry. Cut out the pattern from the Napkin and glue it with the Napkin varnish to the music clock. Use the special Napkins-brush, it minimizes the risk of wrinkles and cracks in the motif. After the paint has dried, apply decorative snow in the middle with the Spatula and place the Gnome on the still wet snow. Decorate some stars around the decorative snow and fix them in the snow as well. Now let everything dry well.
