Patchwork look seat cushion

Instructions No. 1928

Difficulty: Beginner

Working time: 3 Hours

When it Sun shines and you want to make yourself comfortable in the warmth on the bench **or** chair, cushions are indispensable. Our **seat cushions** are not only practical, but look beautiful in a **patchwork look** and are an eye-catcher in your garden.

For a cushion you need the following cuttings:

Fabric cuts9 times squares of 15 x 15 cm and one square of 43 x 43 cm.

A **seam allowance** of 0.5 cm is taken into account for all cuts

Arrange the **small squares** into a 3 x 3 pattern. Sew them together to form a strip by placing the Fabric cuts right sides right sides together and sewing one side together. Repeat this process for the remaining squares, so that you get a total of three "stripes" of 3 squares each. Then sew the strips together to form one large square

Place your square of small squares right sides together with the large piece of fabric and pin it in place. Place the **satin ribbons (**2 x 25 cm on each side) in the corners of one side between the layers of fabric so that the ribbons are on the inside.

Sew the pillow together, leaving a turning opening. Turn the pillow, fill it with **cotton wool and** close the turning opening.

With the **Embroidery twist** sew **in** quilting by hand.
