Pearl bracelets

Instructions No. 2731

Difficulty: Beginner

Working time: 1 hour

Design individual bracelets for yourself or your loved ones. For example, how about a beautiful friendship bracelet or the right jewellery for a special occasion? In this tutorial we will show you how easy it is to make them.

Fancy Bead Bracelet Making

In no time at all, you can create the bracelets yourself with very little material. All you have to do is clamp the Magic-Stretch rubber cord between the bead stringing needle and string the beads and pendants in any order. You can choose the order and colour of the beads yourself. Simply choose your favourite colours and combine them with each other. You will soon notice how a great play of colours is created here. A special eye-catcher are the filigree pendants that you simply thread between the beads.

When you have reached the desired length of the bracelets, all you have to do is knot the two ends together.

Tip: You can measure the length of your bracelet on your wrist with a string or a tape measure. If you prefer it a little looser, add 2 cm here.
