Pennant Invitation Cards

Instructions No. 2508

Difficulty: Beginner

Working time: 3 Hours

Fancy cards that are great to make as invitation cards for a birthday or garden party. With just a few materials and a few simple steps, you can create an **eye-catcher**.

Make the cards like this:

Transfer the **templates** to the **papers** and cut them out.

Use the folding board to emboss a folded edge on the smaller pennant shape. This is where the card will be folded later.

Round off the corners of the rectangle with a **punch** or scissors.

Glue the small pennant on the upper edge onto the large pennant. Attach two **wooden sticks** to the top edge of the pennant. Work a piece of the cord directly into the pennant. Glue the two ends of the cord between the sticks.

Thread a decorative **bead** over the loop.

Now you can decorate the cards as you like. For our cards, we chose a combination of punched out and written **lettering**.
