Pop-up Birthday Card

Instructions No. 942

Difficulty: Advanced

Working time: 20 Minutes

You can also easily create beautiful cards for the most diverse occasions yourself. This **pop-up card** is quickly made and contains, besides its ornaments, enough space for your good wishes

And it's as simple as that

First print out the instructions. Cut out a 31.5x15 cm piece from the Craft cardboard sheet and fold it to the marked dimensions, use the folding bone, it makes it easier for you to fold clean edges

In the middle field above and below measure 3cm from edge, so that a field of 9x 10.5 can be cut out. Work slits into this cut-out as well as into the cut-out piece according to the dimensions given. Then fold the cut-out lengthwise in the middle and insert it at the top and bottom. You can now decorate the card as you wish and you will find sample dimensions for cardboard cut-outs on the instructions. Punch out flowers from Motif paper and glue them on top of each other to form a flower Tip: Some papers are white on the back, so you don't need an extra white Paper.
