Rainbow Card with Quilling

Instructions No. 2186

Difficulty: Advanced

Working time: 1 hour 30 Minutes

Quilling gives you the opportunity to create a variety of decorative shapes out of paper, such as flowers, animals, figures and even a beautiful **rainbow** - the sign that everything will be all right again. In times of the Corona Pandemic, the rainbow is a sign of hope, but also stands for peace. The rainbow **unites opposites** like sun and rain.

This is how the card is created:

Quilling is the creative technique of rolling and shaping strips of paper. The ends of the paper strips are fixed with glue so that the figures keep their shape. The basic shape of quilling is the circle, which can also be turned into a spiral in no time. But other basic shapes can also be easily created by carefully pressing and gluing.

For our **rainbow card** we only need the **quilling circle**. For the clouds, roll up the white paper strips with the quilling pen and fix them with craft glue.

Lay the coloured **strips** for the rainbow on top of each other and fix one end with craft glue. At the other end, lay the strips in different lengths to make a nice bow and then fix the ends with **craft glue** as well. Glue the rainbow onto the card with craft glue. Glue the quilling circles to the ends of the rainbow as clouds using craft glue.

Finally, you can add a quote **sticker** to the card or write a nice saying with a marker.

Discover here another idea to make Quilling cards: Easter **Quilling greeting cards,** which, by the way, are also perfect for your own personal messages regardless of the season!

We wish you a lot of fun while crafting!

Must Have
