Rupfen-Kissen mit Motiv-Strohseide und schablonierten Motiven

Instructions No. 358

These creative pillows do not only please globetrotters. They are designed with Motif straw silk and Fabric paint on rustic plucking. The motifs are simply stenciled on.

Pillow "World Map"

Tear the motif straw silk along the edges and stick it onto a jute fabric blank with Napkin varnish . After drying, fix a painting stencil with crepe-Adhesive tape on the fabric. Pick up a little blue Fabric paint with the brush and dab the motif very thinly.

Remove Stencil carefully and put it on again. Stencil up further motifs, then clean the Stencil with water.

Pillow "Compass

Spray the Stencil "Compass" with spray adhesive, let it flash off for a short time and paint it firmly on a pluck cut. Mix a turquoise from blue, green and white Fabric paint and apply the resulting colour with a brush. Wipe over the motif with Ink Pads , then immediately remove Stencil and clean with water.

After drying, place a damp cloth on the stencilled jute fabric, fix Napkin varnish and Fabric paint by ironing at cotton temperature

Then place another jute blank under the finished cushion panel and sew Jute yarn together (staple) with 4 cm distance to the edge with large stitches and except for one opening. Now insert the ticking and close the opening. Weave 2 strands Jute yarn and 1 strand Cord (180 cm each) together and thread through the previously tacked seam. Knot the two cord ends together in a corner of a pillow, from which Yarn might make a tassel and knot it as well.

Stenciling

Select a painting template of your choice. With Stenciling ink and with a nudge brush the motive can be transferred very well with Fabric paint to Jute fabric .

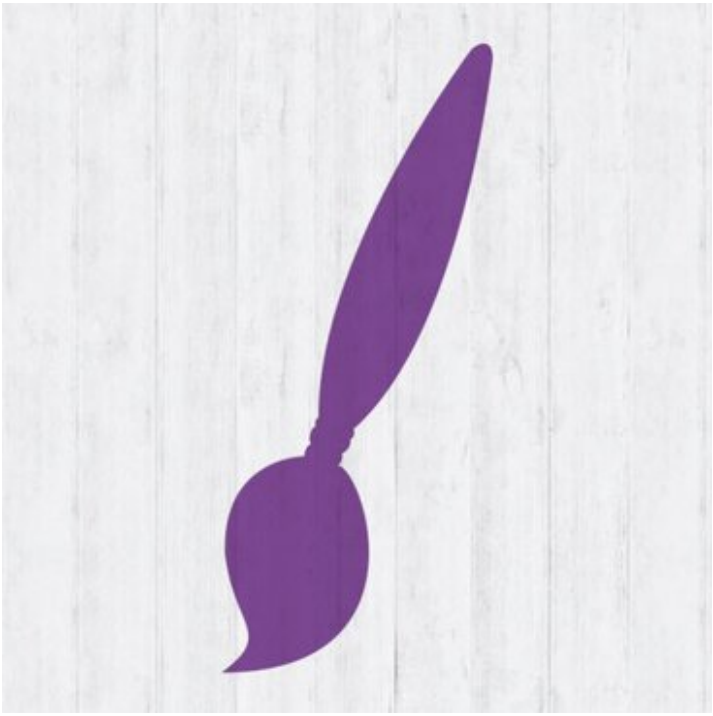

Sewing

The Jute- or plucked fabric is sewn up by hand. Afterwards the edges of the fabric are frayed out and thus look nice and rustic.

This idea is timelessly beautiful!
