

Serviettentechnik auf Pflanzgefäßen aus Zink

Instructions No. 294

Difficulty: Beginner    

Working time: 1 hour

There's a breath of fresh air on your windowsill! With Napkin technique the chic zinc vessels are spring-freshly designed in no time at all. Is missing only still the suitable planting.

themenset_298_anzeigeblock_2_text

It's that simple:

Prime the metal object white, paint the inscription fields with 2 - 3 layers Board paint Tear out the napkin motifs, remove the two white layers and stick the motifs onto the zinc pots with Napkin varnish .

Glue the **butterflies** on white primed aluminium sheet, cut them out after drying. Use the small ball of the metal spinning tool first to trace the contours on the front side, then use the large ball to emboss them plastically from the back side. Fix small pieces of enamelled copper wire as feeler with hot glue. Fix the finished butterflies with hot glue to the planters and to individual plug-in wires.

Stick different tapes with tape-Ribbon around the zinc pots and plant them.

This idea is timelessly beautiful!
