snow globe with gnome

Instructions No. 3178

Difficulty: Beginner

Working time: 20 Minutes

Enchant your home with little miniature gnomes underneath the glass bell

Winter is just around the corner, and what better way to welcome the cold season than with a homemade, magical snow globe right in your living room? With our creative inspiration, your home will be adorned with wintry Secret Santa magic in no time at all.

Start your DIY-Project by covering the base of the-glass bell decoration with decorative snow. Gently distributed, the snow provides the first authentic eye-catcher in your glass bell.

Place the small figures and a miniature fir tree on the still damp carpet of snow.

Allow your creation to dry before carefully placing the glass bell over your scenery. This glass bell not only protects only your snow globe, but also gives it a touch of elegance and highlights the winter wonderland wonderfully.

As a finishing touch, you can add sparkling stars to the outside of the glass bell . These small, shining accents turn your snow globe into a real eye-catcher that can be perfectly displayed on any table, windowsill or shelf.

Discover a variety of other creative materials in our online store that will inspire your imagination. Your snow globe is only one click away!
