Spardose aus bunten Papieren

Instructions No. 264

Difficulty: Beginner

Working time: 30 Minutes

Whether you are saving for your next holiday or for those chic sunglasses, it is much easier with this colourful money box. The different papers are glued together with 3D pads. Combined with the paper flowers it looks simply great.

It's that simple:

Cut a slit about 5 x 40 mm long into the roof with the scalpel. Cover all surfaces of the house with paper cut to fit. After drying, cut the slit in the roof free. Combine individual motifs and cuts in different patterns on the sides

Decorate small flowers or other paper accessories and finally a decorative bird on the house. With double-sided Adhesive tape and 3D Glue pads you can create your own individual savings house.

This idea is timelessly beautiful!
